

Millwood Issue Taken Under Advisement

WASHINGTON (AP) — An Army Engineer board has taken under advisement the conflicting testimony and arguments over whether there should be a "wet" or a "dry" dam at Millwood, Ark.

A "wet" dam would have a permanent water supply reservoir. A "dry" dam would be used to impound water only in time of high water when it would be needed to ease flood threats.

The proposed Millwood dam would be the largest of seven dams planned for Little River and its tributaries in Arkansas and Oklahoma. Overall cost has been set at 90 million dollars, of which the federal government would put up 55 million.

Only serious argument has been over the type of structure Millwood should be. Residents living below the dam site generally favor a "wet" dam; those above, a "dry" dam. The Army Engineers have planned for a "dry" dam.

Spokesman for the downstream group argued before the Army Review Board yesterday that the permanent reservoir was needed to assure an adequate water supply.

Among contrary arguments advanced by the upstream group was that valuable acreage would be taken out of farm production and industrial development upstream would be jeopardized by a permanent reservoir.

Rarely Does Anyone Seek to Be Committeeman or Justice of Peace But Both Are Important

INVOKES FIFTH AMENDMENT — Uniform maker Herman Kravitz of Atlantic City, N. J., turned down chance to deny to Senate investigating subcommittee that he bribed government officials. The contractor invoked Fifth amendment on most questions put to him by subcommittee which also sought to learn why Kravitz hired Vice President Nixon's campaign manager as an "influential" lawyer after Kravitz was accused of stealing government cloth. — NEA Telephoto

Two thankless and practically payless positions in Hempstead County have been sadly neglected during the past years for want of candidates although they are highly important in affairs of the county.

Rarely does anyone ever seek to be a Justice of the Peace or a committeeman, a member of the Democratic Central group. Yet both have key duties to perform.

Justices of the Peace make up the Quorum Court which is actually the legislative body of the County. Each fall the group meets and sets up the county budget, makes recommendations as to efficiency of county personnel and rules on expenses of various offices as well as other duties.

Committeemen make up the Democratic Central Committee which sets up elections, fixes fees of candidates, certifies nominees, as well as rules on controversies between candidates and makes recounts of boxes, etc.

Easy To Qualify — All a person has to do to qualify for both Committeeman and Justice of Peace in any township is sign the party loyalty pledge, pay \$1.00 filing fee before the ticket closes at noon, May 2, and file the corrupt practice pledge with the County Clerk prior to the filing deadline, according to chairman Louis Crain of the County Committee.

Each voting precinct is entitled to one committeeman. For instance, if Hope had six voting precincts, six committeemen could be named.

Under the Arkansas Constitution each political township in the county is entitled to two Justices of the Peace, regardless of the number of votes, and one additional Justice for each 200 votes cast in the 1954 general election for Governor over 400 votes.

DeRoan Could Have 10 — County Clerk Arnold Middlebrooks reported 2,132 votes cast for Governor in DeRoan township in the Governor's race last election. DeRoan embraced the four wards in Hope, County Box 5, Shover Springs and Rocky Mount in the last general election.

This would entitle DeRoan Township to 10 Justices whose duties would be limited to Quorum Court, performing marriages and accounting. — Continued on Page Four

Democrats Offer Bill to Assure 90% Parity

BY B. L. LIVINGSTONE

WASHINGTON (AP) — A bill to give farmers both price supports and cash "compensatory payments" was put forward by House Democrats today as a combination designed to assure 90 per cent of parity prices on basic crops.

Chairman Cooley (D-N.C.) of the House Agriculture Committee scheduled early committee consideration of the proposal for direct farm payments, which he said he would include in a new measure to authorize the administration's "soil bank" program.

The step was cleared with Democratic House leaders last night after they sidetracked a \$1,200,000,000 appropriation bill which Democrats earlier had contended would have given Eisenhower the money and "all the authority he needs" to put a soil bank program into operation this year.

The soil bank money bill had been challenged by Republicans as lacking proper authority.

The sudden switch in Democratic strategy clouded the outlook for farm legislation. It also appeared to have delayed indefinitely House action on Eisenhower's request for a soil bank bill with authority to start payments this year.

Democrats launched a fight to win the equivalent of 90 per cent of parity for farm crops through a direct "compensatory payments" plan sponsored by Representative Poage (D-Tex.). Parity is a price determined under farm law to be fair to farmers in relation to their costs.

The bill would authorize the government to pay farmers — in cash — the difference between prevailing government price support levels and 90 per cent of parity on wheat, corn, cotton, rice and peanuts.

Thus, if the price support level were 84 per cent — the level announced for wheat — the government would pay farmers in cash the difference between 84 and 90 per cent of parity.

This is a variation of the plan advanced by Charles F. Brannan, Democratic former Secretary of Agriculture and turned down by Congress.

The proposal seemed certain to cause an uproar if it reached the floor of the House.

Cooley told newsmen after a conference with Democratic House leaders that he would introduce a combined soil bank and "compensatory payments" bill tomorrow, and would probably call his committee together to act Monday.

Seven Children Perish in Ohio Fire

TOLEDO, Ohio (AP) — Fire raced through a one-story cinder-block home eight miles northwest of here early today killing seven Negro children who were alone in the house.

Fire Chief Richard Campbell said the children were alone in a Whiteford Township, Mich., company in fighting the blaze just north of the Michigan-Ohio border, said the father, John Cooper, 33, was en route with his wife, Laurel, 29, to a Toledo cafe where she works when the fire broke out.

Dead were Brenda Joyce, 9; Harrison Leonardo, 9; Jacquelin, 6; John, 4; Sherry Jean, 3; Georgia Marie, 2; and Carter Stephen, 2 months. Campbell said he believed Harrison Leonardo had been orphaned and was being reared by the Coopers.

Sheriff's deputies said investigation. The deputies said State Police wanted to determine why the children were left alone.

The fire chief said bodies of three of the children who apparently tried to escape were found sprawled in a hallway and at a door. The other four bodies were found in beds. They had been in two rooms of the six-room house, Campbell said.

To Affirm Use of Atoms Only for Defense

By JOHN M. HIGHTOWER

WASHINGTON (AP) — Secretary of State Dulles is studying ways to prove to the world "by word and deed" that the United States intends to use only for defensive purposes the power of its atomic and hydrogen weapons.

He apparently hopes in that way to bring pressure on the Soviet Union to give firm assurances that it also will refrain from the use of threat of atomic war except for defense.

Dulles did not outline any specific ideas when he discussed the project in the course of a speech last night to the American Society of International Law.

It was the third time in recent days that an administration spokesman had provided evidence of developing American policies and tactics in foreign affairs without disclosing details.

In an address in New York Monday, Dulles declared U.S. readiness to join with the Atlantic allies to broadening the work of the North Atlantic Treaty Organization to include unspecified political and economic problems.

Last Saturday night President Eisenhower spoke in an address here of creating a "rotating advisory group" to advise the government on foreign aid issues, apparently foreshadowing a full study of the foreign aid program and its broad purposes.

Dulles said last night he thinks "the time must come when the Soviet rulers, if only as a matter of expediency and in deference to what should be incessant demands of world opinion, will be prepared to take steps to assure that the new power of modern weapons is in fact subjected to the will of the community."

Kimmel before Senate probes in Washington. — NEA Telephoto.

Part of U. S. on Daylight Saving Sunday

NEW YORK (UP) — Almost half the American people will turn their clocks ahead one hour on Sunday morning. This lengthens the days of summer, confuses some cows and troubles travelers. It's known as daylight saving time.

The clocks in the less thickly settled 56ths of the nation will go right on ticking on the time to which their cows have become accustomed.

From Maine to Washington, D. C., and as far west as the western edge of Pennsylvania everybody changes his clock. It causes few complications.

In California and Nevada, same thing. In the rest of the country it becomes more complicated. Like heady wine, it's a local option matter in many states.

Most of northern Illinois and a good part of Indiana shift to daylight time. Southern Illinois and other parts of Indiana don't. St. Louis and environs lose one hour's sleep this week. Kansas City sleeps through without change. Cities in Ohio, West Virginia, Kentucky and Montana have daylight; rural areas mostly remain on what is sometimes referred to as "God's time."

Editor Is Indicted by the U. S.

SAN FRANCISCO (AP) — Editor John William Powell has been indicted by the government in its first use of a 1953 sedition law.

He is charged with using his China Monthly Review in Shanghai to thwart American military progress in the Korean War.

He says the charge is "completely untrue."

Powell, his wife Sylvia and Julian Schuman of New York all were named in one indictment yesterday.

Twelve other counts are leveled against Powell alone. He is charged with publishing issues of the Review which accused the United States of being internally corrupt, pursuing a "morally unjustifiable" foreign policy, attempting to exterminate the peoples of Korea and China with germ warfare and poison gas, testing germ warfare weapons on Korean and Chinese prisoners and spreading smallpox in North Korea. These statements, the indictment charges, Powell "well knew were false and untrue."

"I think they're pushing this a little far," Powell told the Associated Press when informed of the indictment. "Certainly neither Sylvia nor I have done anything seditious. That's completely untrue."

"What we have done is to have expressed very openly and vigorously our opinions on what has happened in China and on our government's foreign policy in China. We've learned in the last three years we've been home that you sense things at some risk."

"Our policy doesn't recognize the revolution in China as an accomplished fact. If we continue to play foolish with Chiang Kai-shek we'll lose all of Asia."

WANTS HORSE RETIRED — MEMPHIS, Tenn. (UP) Pete Zoroll, retired mounted policeman, has decided his faithful horse, Tim, ought to retire too.

Zoroll offered to "give my next pension check" for the horse he rode for 12 years and take Tim into retirement with him.

Russia Changes Stand on Nuclear Disarmament

LONDON. — (UP) — The Soviet Union suddenly shifted its position today and announced it is ready to discuss nuclear disarmament as well as conventional arms cuts.

The switch in Soviet tactics was announced by Andrei Gromyko, Moscow's chief delegate to the current five-power United Nations disarmament talks.

Gromyko told the conference this morning that the Soviet Union may amend its proposal to cut only conventional weapons, and include nuclear arms reductions as well.

Authoritative western sources said it was too early to tell if this was a major concession by the Soviets, or whether it was a propaganda maneuver designed to improve the appearance of Moscow's arms proposal.

The proposal which Gromyko presented to his colleagues from the United States, Britain, France and Canada on March 27 dealt only with conventional arms. It omitted any mention of nuclear arms cuts. This omission has been a major lack in the Soviet stand.

Gromyko held a private talk today with Harold Stassen, the chief U. S. delegate to the disarmament conference, as a result of a cocktail party chat Tuesday night between Stassen and Communist Party Boss Nikita Khrushchev.

Shortly afterward, the Russian announced to the full five-power disarmament conference the shift in Soviet position.

'Prejudice' Charged in Graham Trial

BY JAMES M. FLINCHUM

DENVER. (UP) — John Gilbert Graham's attorneys bitterly charged the prosecution today with seeking to "infect" and "prejudice" the jury with details about bodies and wreckage of the airliner Graham is accused of dynamiting, killing 44 persons in a murder plot.

Charles S. Vigil, one of Graham's lawyers, objected to further state evidence not directly linked with identification of Graham's 54-year-old mother, killed in the liner disaster near Longmont, Colo., last Nov. 1. Graham is charged only with her murder.

Vigil said testimony concerning the other 43 bodies and the wreckage strewn beet field where the airliner crashed should be excluded.

Trial Judge Joseph M. McDonnell overruled the defense objection. He said the presence of bodies and wreckage was "so much a part of the case that I think they (the state) may proceed" with its line of testimony.

District Attorney Bert M. Keating as called numerous witnesses, mostly United Air Lines employees, during the past two days to describe the wreckage of the airliner and to tell about the recovery and identification of the bodies.

Negro Driver Hits Bicycle

Cecil Gilmore, 41, Negro, was charged with reckless driving yesterday by City Police following an accident at Third and Hervey. Officers said he ran into a bicycle ridden by a 12-year-old boy, Johnny Mitchell. The youth saw the car was going to hit him and he jumped off the bicycle and escaped injury. The bicycle was badly smashed, officers said.

CHARGED — Houston detective Herschell F. Golden, above, has been charged by Galveston, Tex., police with the murder of his partner of two years, Dwight Omar Fields, while on a pleasure trip to Galveston. Battle between the two police officers took place on a lonely street corner and was the result of several hours of "friendly needling," according to witnesses. — NEA Telephoto

Poles Probing Massacre Is Report

By TOM WHITNEY

NEW YORK (AP) A report has seeped across the Iron Curtain that the Polish Communist government is investigating the Katyn Forest massacre.

Analysts here doubt the suggestion the Polish Reds might dare raise this hot issue.

Still, the report deserves attention because the Polish Communists are going much further these days in their denunciation of Stalin and his works than other Soviet satellites.

Katyn Forest, in western Russia near Smolensk, was the scene of the mass murder in 1940 of more than 4,000 Polish army officers who had been missing since the Polish defeat in 1939.

The Germans, who first reported the massacre during World War II, said the Russians did it. The Soviet government blamed the Nazis. An American congressional committee held hearings for nine months in 1951-52, and laid the massacre at the door of the Russians.

The new report from Poland says the Warsaw government has established a group to investigate and can be expected to make a report in June, which might be made public.

If the report is true, it could mean the Poles intend to whitewash the Russians. Such a step would stem from the fact that the denunciation of Stalin and revelation of some of his crimes has awakened bitter memories in Poland. Many Poles nowadays are asking questions—some of them no doubt conceivable—barely that the Kremlin, having admitted so many of Stalin's purges and massacres, has decided to blame him for Katyn Forest also. Such an action would arouse strong passions in Poland and could be dangerous to the Communists.

If the Polish Reds are delaying into the Katyn story, it seems certain it is being done with Moscow's approval.

AWOL Negro Picked Up Here Wednesday

A Negro soldier listed as Huey Mauldin, 21, of Hope, was arrested by City Police yesterday for U. S. Army Authorities. An Army Warrant showed Mauldin had been absent without leave from Ft. Campbell, Ky., since March 8, 1955. He is at present in jail and will be turned over to the army officials.

Asks Expulsion of Chief Soviet UN Delegate

By WARREN ROGERS JR.

WASHINGTON (AP) — The United States has expelled two Russian U. N. diplomats on the ground they exceeded their authority in helping the return of five Soviet aviators to their homeland 19 days ago.

The State Department late yesterday handed a protesting Soviet Ambassador Georgi Zarubin a note ordering out of this country Aleksandr K. Guryanov and Nikolai Turkin, members of the Russian United Nations delegation. The note also criticized the head of the delegation, Arkady Sobolev.

The note said Guryanov and Turkin were guilty of "exceeding the scope of their official capacity" as members of the Soviet U. N. delegation's staff.

Under the U. N. headquarters agreement, the United States reserved the right to take action against any foreign official accredited to its government's U. N. delegation in "activities outside of his official capacity."

While the U. S. note chided Sobolev, it did not demand his recall. It went to further than to request Moscow to tell Sobolev and his staff to mind their U. N. business henceforth.

Officials said Guryanov and Turkin were guilty of improper action because their U. N. status did not permit them to go to the Idlewild Airport, as they did with the aviators, and shepherd them through an immigration hearing as they left the country. If performed by a duly accredited consular official, such things are all right.

Russia closed its New York consulate in 1948.

Passage of Highway Bill Is Predicted

By LEWIS GULICK

WASHINGTON (AP) — House Republican Leader Martin of Massachusetts predicted today the House will pass the Democratic-sponsored highway bill by a substantial margin and with the support of most Republicans.

Martin's forecast and a similar one from Speaker of the House Rayburn (D-Tex.) indicated a shoo-in victory for the measure, on which the House opens debate today.

House leaders scheduled five hours of debate on the bill because of expected floor fights over some secondary provisions they anticipated no final vote until tomorrow.

Sponsored by Rep. Fallon (D-Mo.), the bill would provide for \$1.1 billion dollars in new federal-state roadbuilding over the next 13 years. That includes 27½ billion for a 40,000-mile system of interstate superhighways, 90 per cent federally financed.

To help pay the cost, highway user taxes would be increased \$14,600,000,000 in a 10-year period. This includes a penny-a-gallon rise in the federal gasoline tax to 9 cents.

VFW Auxiliary Buddy Poppy Sale Planned Saturday

The annual VFW Auxiliary Buddy Poppy Sale will be held Saturday, April 29, it was announced today by Mr. Hinton Davis. All day Saturday on the downtown streets of Hope the poppies made by veterans in service hospitals will be sold. Purchase of a poppy has a special meaning both to the Auxiliary, the veteran and the buyer.

It means that the people, through the VFW Auxiliary, are helping a disabled war veteran to earn money to help himself and his dependents. Besides enabling the veteran to help his family, it gives the man a morale boost that can't be measured in the times and quarters with which the public will purchase a poppy.

Annual Red Cross Drive Nearing Close

The annual Red Cross drive in Hempstead county was nearing an end today with the announcement by Dr. Lloyd Guerin, county chairman, that canvassing had been completed in the four Hope wards. Any person missed, Dr. Guerin said, could still donate by mailing their contribution to Miss Annie Jean Walker, treasurer, at Hope city hall.

Dr. Guerin appealed to rural community chairman to complete their drives as soon as possible so that final tabulation could be completed.

In the city of Hope, Mrs. Bill Toulon acted as drive chairman, and aiding her were the following volunteer workers:

Ward One—Mesdames Hulan White, Lamar Williams, James Collier, James Walters, Hazel Slayton, Lena Lindsey, Hinton Davis, Lloyd Kinard, R. V. Hernandez, Jr., J. W. Franks and Miss Katherine Brant.

Ward Two—Mesdames Fred Glanton, Lex Helms, Jr., Virgil Keesley, LaCrosse Williams, Hugh Keesey, Horton Barber, E. W. Edwards, Milton Mosier, Thomas Anderson, H. P. Hudspeth, Carol Yocum, Joe Johnson, Horace Anthony, James Stewart, Alvin Willis, Vincent Foster, Clyde Coffey, Vic Cobb, Fred Johnson, Kenneth Witt, Dorsey Collins, J. D. Russell and J. E. Quillen.

Ward Three—Mesdames Comer Boyett, C. D. Lester, Syd McMath, John Barlow, B. L. Rettig, Steven Gader, Albert Graves, Jud Martindale, Ted Purtle, Robert LaGrone, Fred Ellis, James Braden, H. H. Tippitt, Olie Whitley, Edwin Ward.

Ward Four—Mesdames Homer Beyerly, Harry Shiver, and McRae Cox.

Dr. Guerin expressed his thanks to all persons donating to the fund, and also to all volunteer workers who have aided in the campaign.

Seniors Play a Variety of Roles

Linda Moore, who is cast in the role of Miss Henrietta Rivers, a middle-aged school teacher, received the D. A. R. Good Citizenship Award. In the Senior Who's Who, she was elected Most Likely to Succeed. Most Dependable, and Most Studious. She is president of the F. T. A. treasurer of the Student Council, and treasurer of the N. H. S. She is also a member of the English Club and J. C. L.

Playing the part of Buck O'Hara, a football hero, is William Perkins. William played on the Bobcat team this fall and was an elementary football coach. Vice-president of the senior class he is also a member of the Key Club, N. H. S., and English Club, and served as a junior Rotarian.

Bobby K. Turner plays the part of Miss Carolyn Moran, another teacher. Bobby K. is a member of the Library Club, F. T. A., English Club, Melody Mads, and Rainbow Girls.

Usually the Nervous Man Who Bites His Nails Can't Stand Tension Habits of Others

By HAL BOYLE

NEW YORK (AP) — Curbstone comments of a Pavement Plato: How do you get rid of your inner tensions?

Do you bite your nails? Light up a cigar or cigarette? Chew gum?

Usually a person who has one of these habits is intolerant of one who has another of these nervous habits. The gum chewer looks down on the nail biter. There is a fixed gulf of misunderstanding between the cigarette smoker and the man who enjoys a good corona.

Now—thanks to an enlightened dentist—all us craven addicts have reason to be more tolerant of each other.

Dr. Maury Masser of the University of Illinois College of Den-

tiistry says smokers, gum chewers and nail biters share one thing in common—they are all former thumb suckers.

A tolerant man himself, Dr. Masser sees no basic harm in these grownup replacements for the consoling thumb of childhood. They are merely, he says, needed methods of "relieving the inner tensions that build up."

I cannot attest the general accuracy of Dr. Masser's thesis. But it is certainly true in my case. I was a stout thumb man myself until the age of 5, when I swore off forever.

There followed 29 tense, fretful and restless years. Then at 34 I discovered the relaxing solace of a good cigar. It was like being reborn again. Since then my life Continued on Page Four.

Little Rock Buses End Segregation

LITTLE ROCK (AP)—White and Negro passengers rode together on city buses here today. No incidents were reported.

Citizens Coach Co., which operates buses here and in adjacent North Little Rock, said yesterday it was ending segregation of races on its vehicles. The decision was made, it said, to comply with Monday's ruling by the U.S. Supreme Court.

Previously, Negroes seated in the rear and white passengers in the front of buses.

Arkansas is one of 13 southern states with laws requiring segregation in seating on public transportation vehicles.

Mrs. L. C. Bates of Little Rock, president of the Arkansas chapter of the National Association for the Advancement of Colored People, said, "We agree of course with the bus company's decision."

It will take a little more money for the housewife to fill her market basket this weekend in most sections of the country. Meat prices have moved up and fickle spring weather has delayed vegetable shipments.

Lamb and pork will carry high prices today, reflecting recent wholesale increases. In the past two weeks both have gone up around six cents on some wholesale markets.

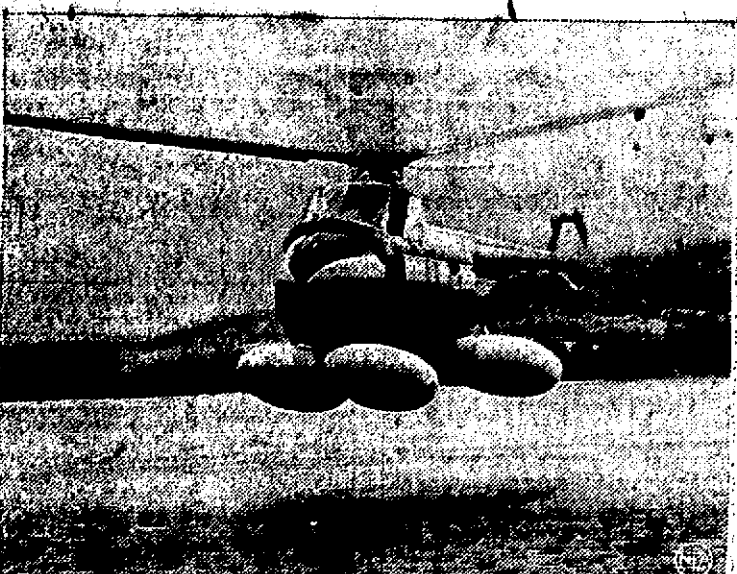

Wholesale beef price increases probably will not show up immediately on the butcher's counter. Despite the increases, meat prices still are below those of a year ago. Differences in local supplies will also permit retailers to feature some of the generally cheaper cuts at special weekend reductions.

Chickens will cost more in most sections this week. Recent production has brought a cut in the number of birds sent to market. Vegetable crop delays caused by cool weather have eliminated most outstanding buys except in southern and western sections where local crops are available.

Good buys listed by government market experts included cabbage, parsnips, endive, escarole, iceberg lettuce, potatoes, sweet potatoes and small peppers.

Oranges and grapefruit generally were the best buys found on fruit counters.

NEW YORK STOCKS

NEW YORK (AP)—The Stock Market advanced moderately today in somewhat heavier trading.

Prices in the early afternoon were up fractions for the most part and on out to between 1 and 3 points in a few instances. Losses were small.

Trading emphasis today centered in some of the oils, railroads, steels and chemicals. No division was depressed, but there were minus signs in the coppers.

Murphy Files Statement With SEC

WASHINGTON (AP)—Murphy Corp. of El Dorado, Ark., yesterday filed with the Securities and Exchange Commission a registration statement covering a proposed offering of 250,000 shares of \$1 par value common stock for public sale.

Murphy Corp., a family-owned concern, is engaged principally in oil and gas exploration and development but through a subsidiary it also operates timber and farm lands.

The statement to the SEC said the company plans to use part of the proceeds of the sale to redeem and retire some 3 per cent unsecured debentures.

Around \$600,000, the application said, would be used for investment in a bromine project at Catesville, Ark. near El Dorado. The company said it had contracted with the Michigan Chemical Corporation for exploration and development of an estimated 4,800,000-pound reserve of bromine at Catesville. Bromine is used in making bromides and in products that go into the making of tetraethyl.

Remainder of the proceeds would go into general funds of the corporation for investment and expansion of other business ventures, the application said.

U of A to Issue About 650 Degrees

FAYETTEVILLE (AP)—About 650 students will receive degrees at University of Arkansas commencement exercises here June 2. The ceremony will be held in Razorback Stadium. In case of rain it will be held in the field house. The commencement address will be delivered by President John T. Caldwell.

Dr. Monroe F. Swilley Jr., pastor of Second Ponce de Leon Baptist Church at Atlanta, Ga., will deliver the baccalaureate sermon June 1.

Dr. Swilley served as pastor of First Baptist Church at Pine Bluff from March 1943 to October 1945.

MANILA, P. I. (UP) — An intrepid Filipino fisherman has sailed from Hawaii to the Philippines on a solo voyage that took nearly a year, according to reports reaching here today.

A telegram received here by the Aviation rescue Control Center at International Airport said Florentino Das landed safely on Siargao island off the northeastern coast of Mindanao Tuesday.

The 37-year-old fisherman set sail from Hawaii May 14, 1935. He made stopovers at Ponape Island, Truk and Koror island in the Palau group.

A hero's welcome awaits Das in Manila when he arrives with his sailboat under Navy escort.

LONDON (UP) — Communist Poland and neutral Cambodia have decided to establish diplomatic relations and exchange ministers, Radio Peiping said today.

STOCKHOLM (UP) — "Wake up, dear, there's a tanker in the garden," Anders Lagerkuist shouted to his wife.

They called police who found a drunken Norwegian mechanic had taken the 150-ton tanker Sydtrak for a joy ride and ploughed it into the Lagerkuist waterfront property.

RIO DE JANEIRO, (UP) — The city's policemen will be better protected from pickpockets under a new pay system started yesterday. All officers must now go to headquarters for their money instead of going to district precincts as heretofore. Several patrolmen have complained that their pockets were picked even before they left the precinct stations.

CORDOBA, Argentina, (UP) — Kaiser-Argentina announced yesterday it will roll its first jeeps off the assembly line as its new 7,000 jeeps this year.

she did that I didn't like. I haven't bothered since.

A TENANT

Dear Tenant: It takes a couple of years to establish a movie stars to adopt the "I don't care" line and use it successfully on all occasions. Few of us would, or could, use it as extensively as Humphrey and Lauren do. However, when necessary, it has its advantages.

When people simply will not take hints or suggestions, refuse to show even a modicum of consideration for the privacy of others, only drastic measures will take them off our necks. Then trifle we must get!

The neighbor who is everlasting established in your kitchen, the relative who has a habit of appearing at mealtime, unexpectedly and with children, is asking for rough treatment. Tell her off. You then have more to cultivate the people you care about.

Dear Dorothy Dix: What makes young people of today so thoughtless about the feelings of older people, especially those nearest to them? My father is in his seventies, has a large family, most of whom come regularly to see him. Three of his grandchildren, however, teen-agers, never visit him. They are actually rude when they see him and show no feeling for him.

who never. Don't you think I have more regard for my old folks?

Dear G. K. Young people are different because their parents are encouraged, anything. Perhaps the parents, themselves, are selfish in their attention to their children. They are so busy being the children back to the parent they should never have to try to divert your father's attention away from these young people and focus it on the grandchildren who call on him.

Dear Dorothy Dix: I've been married four years to a very devoted husband. Recently he got a job in another state and wanted to give up my job to come with him. I know I can get work there, but I don't want to make a change. We have no children and want some very much. I want to be with my husband, but don't think I'd like the place he's working in.

Dear Bella R.: You'll never have the children you want with several hundred miles separating you and your husband. Don't draw conclusions about a place you've never seen, stop weighing pros and cons, and join your husband. Keeping a good marriage going is more important than geography.

There's been one long smoke-filled day. But my enjoyment has been interrupted by many cigarette smoking hostesses who complained that the rich, dreamy aroma of my stogie reminded them of smoldering hemp.

"Why don't you light up a cigarette instead?" they urged.

What could a polite man do but reluctantly extinguish his fine two-bit cigar and quietly slip the tub back in his pocket when no one who actually enjoys smoking manners to tell them the truth?

Noted Actor Edward Arnold Dies at 66

HOLLYWOOD, (UP) — Actor Edward Arnold died suddenly at his home today of a cerebral hemorrhage. He was 66.

Arnold, the "Mr. President of radio and television, had had no previous illness and was in good health.

He died at 2:30 a.m. (PST).

His son-in-law, Dr. William F. Orlando was the first to arrive at the actor's home in nearby Encino in San Fernando valley.

The actor was born Guenther Schneider in a New York tenement. His father and mother died before he was nine years old and Arnold was schooled at the East Side settlement house. In an amateur performance there he played Lorenzo in "The Merchant of Venice" so well he won the approval of John D. Barry, director of the dramatic club and instructor at the American Academy of Dramatic Arts.

Arnold continued to appear in other shows, meanwhile working in an upholstery shop. He then toured the country with the Ben Greet Shakespearean players. After several other stage roles and positions with the theater he appeared as a juvenile with Ethel Barrymore for three successive seasons, following with four years in stock.

In Richmond, Va., on tour Arnold married Harriett Marshall. They had three children: Elizabeth, William and Dorothy Jane.

At about that time Arnold was offered the opportunity to succeed Francis A. Bushman as star of Essanay Studio in Chicago.

Wallace Berry and Gloria Swanson were in Essanay at the time. Arnold accepted the offer and appeared in more than forty pictures.

He returned to the theater, playing Broadway and in stock. His marriage ended in divorce in that period. In 1927, on tour again, he married Olive Emerson, a noted concert singer of St. Paul, Minn. Mrs. Arnold now has a large vocal studio in Beverly Hills, Calif. They were divorced in 1940.

Michigan produces nearly half the timber marketed in the Great Lakes states.

hood, so I naturally turned to cigars.

"If I had wanted to grow up to be a cigarette smoker, I would have started off as a child by sucking my little finger. Now please let me enjoy my cigar in peace or I won't sign right here and now. I may resort to real infamy and grab my whole hand in my mouth and make gurgling noises."

Faced with a threat like that, any hostess would back down and let a cigar man blow the smoke rings of his own choice.

That is the wonderful thing about science. The more you learn about it the more practical ways you find to use it to improve your daily living.

FALL IN THE SPRING—The gal on the ground is Marilyn Monroe immediately after she fell from the five-foot-high platform behind her. She was walking on it for a scene in "Bus Stop." But don't worry, men, she only skinned her knees. The scene was being shot at a rodeo in Phoenix, Ariz.

Poppy Day

This is the second in a series of articles which will explain the purposes of this sale:

The first instance of wearing poppies in honor of the war dead occurred in New York City, November 9, 1918, when Miss Monica Michael, of Athens, Georgia, who was serving on the staff of the Y. M. C. A. Overseas Headquarters, distributed poppies to men attending the twenty-fifth conference of the Y. M. C. A.

In June, 1919, during the homecoming of the 32nd Division in Milwaukee, a booth from which coffee and doughnuts were served was decorated with paper poppies. Passers-by began taking the poppies from the decorations and placing them in their button holes, leaving contributions on the counter in exchange for them. The booth was twice stripped of its poppies and several hundred dollars was contributed for the benefit of the returned veterans.

Have your donations ready when the volunteer workers call May 5.

The following ladies will be in charge of sales: Mrs. G. N. Davis, President of the Ladies Auxiliary; Mrs. Louise Hicks, Mrs. Wordia Stuart, Mrs. Alice Holbert; Misses JoAnna Lowe, Mary Lillian Nelson, JoAnn Wright, Lois Thomas, Ollie Nell Stuart, Lorene Johnson and Shirley Robinson.

A "Pop Rally" will be held in the home of Mr. and Mrs. R. J. Hicks, Monday night, April 30, at 7 o'clock.

Bible Institute Conducted

At Common Hill
The Common Hill Baptist Church Community has completed a series of Bible lessons on the causes, affects, and habits of evil speaking.

These lessons have been beautifully illustrated by the Instructor, Rev. Timothy Wyatt, a student of the Minister's Training Institute in Magnolia, Arkansas.

Friday night, April 27, at 7:30 o'clock, Rev. Wyatt will discuss a lesson on True Baptism. Rev. W. J. Jones, Pastor, Mrs. Jessie Mae Jones, President of Bible Class.

'Spooky Hollow' Success

Methodist Bishops Seek Solution

By GEORGE W. CORNELL

MINNAPOLIS, Minn. — Methodist policy makers, haunted by old troubles that once split their now-united church, today had two words on their minds — "principles" and "practicality."

These were the dual aspects of a plan that the church "move in sure but convoluted steps" to get rid of racial segregation.

An underlying question, couched in a weighty opinion by the church's Council of Bishops, was how soon — and by what means — the job could be done without shattering repercussions.

The matter was up to the 766 delegates at a general law-making conference, which charts the future of America's biggest Protestant church for four years ahead.

The bishops, in their key, 23,000-word message last night, declared that "these evils" of racial discrimination and segregation must be driven out of the church. But they said the way to do it is by following an old Methodist tradition to "establish principles by a practical consideration of what could be done."

When adopted — as a first, major step — the setting up of a study commission on the problem, to bring back recommendations to the next conference in 1960.

If done, this would mean dropping, for the moment, proposals for merging the church's all-Negro subdivision with regular regional jurisdictions.

The separate administrative unit was a feature of the church's reorganization — North and South — in 1955.

More advance preparations are needed on the matter, the bishops suggested, to find means to "preserve the good" — united church strength, "while eliminating the bad" — segregation.

"Our hope for success is to unite in a common endeavor . . . A good outcome requires a commitment on the part of Methodist as individuals to clear away the deterrents to brotherhood."

MOR

The audience was held in awe and suspense throughout the entire evening, and the mirth provoking situations, with comedy and romance, kept them laughing continuously. It has been acclaimed one of the best plays presented by the club in recent years. Every actor was a star.

The persons who took part in the play were: Ozie Marie Williams, and Benjamin Dennis, 12 grade; Ozie Dennis, Lois Thomas, Dolly Green, Burns Jones, Cal McFadden, James Rogers, Allen Edwards and Jacob Williams, 10th grade; Promoters, JoAnna Lowe, 12th grade and Frances Douglas, 10th grade; Sound effect, Freddie L. Smith, 11th grade; Make up, Ozie M. Williams, 12th grade and Cal McFadden, 10th grade; Stage Manager, Jo Anna Lowe, 12th grade; Sponsor, Mrs. Naomi R. Yerger.

Dinner Guest

Mrs. Parlee Solis, President of the Common Hill Baptist Church Missionary Auxiliary, was the guest of Mrs. Jessie Mae Jones and her mother, Mrs. Polly Bolden, Sunday, April 22.

The day was very enjoyable. After the family style dinner was served, the conversation was centered on Christian religion, past and present experiences. Mrs. T. W. Wyatt joined us in the late afternoon.

Nixon's Pal Called About \$5,000 Fee

By HERBERT FOSTER

WASHINGTON, (UP) — Senate investigators today subpoenaed Vice President Richard M. Nixon's campaign manager to "ask about a \$5,000 legal fee he received from blacklisted uniform maker Herman Kravitz."

Officers were instructed to serve the subpoena on the Senate investigating subcommittee on Attorney Murray M. Chotiner in Los Angeles today. Chotiner is a long-time political adviser to Nixon. He managed Nixon's campaign in 1952 and in previous elections.

The subpoena called on Chotiner to testify next Wednesday.

Kravitz refused to tell the subcommittee yesterday whether Chotiner intervened with the Justice Department in 1953 when Kravitz was charged with misappropriation of government property in making military parkas. Kravitz was later convicted and fined.

The pudgy, 35-year-old Atlantic City, N. J. uniform maker, now in the real estate and loan business, said he hired Chotiner to look over plans in the Los Angeles area where he might move his A-C Clothing Co. from New Jersey.

But Kravitz invoked the Fifth Amendment when subcommittee counsel Robert F. Kennedy asked if that was the only reason he retained Chotiner when he had seven other attorneys in the East.

Youthful Boy, Girl Die in Accident

HEBER SPRINGS, (UP) — An auto mobile crashed into a bridge abutment between here and Quitman yesterday, killing both young occupants of the vehicle.

They were identified by Deputy Sheriff Roy Carden as Paul Caldwell, 20, of Higden, Ark., and Lucille Cooper, 14, a junior at Heber Springs High School.

Interested citizens serve on this court. More citizens should consider serving as a duty to their community.

No Limit to Talents of Miss Sumac

By BOB THOMAS

HOLLYWOOD (AP)—There seems to be no limit to the range of Yma Sumac's talents. She'll prove that next year when she makes her operatic debut in this country. The Peruvian doll is a favorite on the night club circuit. Her record albums are good sellers, and she is a popular concert artist. She appeared in a Broadway show, "Flahooley," and is a regular guest on TV and radio. She is now appearing in her second movie, "The Loves of Omar Kayam."

Next, the opera. The Cosmopolitan Opera, which offers a spring season at the San Francisco Opera House, has signed her to star in its production of "Lakme" next fall. This is a rare instance of a singer graduating from night clubs to opera.

"It is not my first opera," the dark beauty explained. "Once before, I sang 'La Traviata' in Rio de Janeiro. But this will be the first time I have sung opera in this country, outside of some arias which I have sung in concerts."

"And oh, it is so much work to prepare for it! I am naturally lazy, but my husband (Moises Vivanco) is a slave driver. He makes me practice one or two hours a day while I am on this picture. It will four hours a day when I finish the picture."

She said that she is learning under a coach for the first time in her career. Before, she always taught herself to sing, she remarked. Oddly enough, she is working harder to prepare for "Lakme" than she ever has for other mediums. And she is being paid less.

"The top salary for an opera

ALONE OF HIS KIND—In the village of Taktuyaktuk—Tuk-Tuk for short—way up in Canada's bleak Northwest Territories, inside the Arctic Circle, this log house stands. It is small, but sturdy against the howling Arctic winds and drifting snow. Atop it is a cross—for it is a house of God. It was built by its pastor, the Rev. Peter Umack (inset), 75-year-old priest of the Anglican Church and the world's only ordained Eskimo cleric. In the humble church, Rev. Mr. Umack conducts Communion and regular services for his congregation, among which are 250 Eskimos.

star in this country is \$1,500 a performance," she explained. "In Las Vegas, I am paid \$10,000 a week."

Then why does she do it? "There is prestige in doing opera. And also a great deal of satisfaction."

Yma's vocal range is well known. She can span five octaves with ease and clarity, whereas you and I are lucky to handle two. This offers pregnant possibilities for her opera career. Supposing the tenor gets sick one night. She could sing his part—and the control to and baritone too, for that matter.

She would like to expand her operatic career, through interspersing it with her other engagements so she could afford the luxury of being in opera.

Barons Edge L. R. By 3-2 Score

By The Associated Press

While most fans have been marveling at Memphis' skyrocket start in the Southern Association pennant race, Mobile's Bears have executed an abrupt about-face and now are making motions like a championship contender.

Jo Jo White's Bruins lost five of their first seven games and just a week ago were in a 3 way tie for the bottom spot in the standings. Since then they have won six of seven and have zoomed into third place, just 3 1/2 games off Memphis' pace.

The Chicks' amazing fast break was sidetracked last night by Atlanta when former Memphis star Sammy Meeks slammed a 2-run homer in the bottom of the ninth to give the Crackers a 4-4 victory. The loss ended Memphis' 7-game winning streak.

Mobile, meanwhile, was taking its third straight from Chattanooga, 7-6 in 11 innings, Birmingham edged Little Rock 3-2 and New Orleans nipped Nashville 6-5 in 10 innings.

Testifies Title Fight Cost \$150,000

NEW YORK. (UP) — The government's anti-monopoly suit against the International Boxing Club brought forth charges today from Sam Becker, a Cincinnati promoter, that he would have been forced to pay a \$150,000 "kick-back" fee to gain a heavyweight title fight for his city.

Becker, who was accompanied by a husky bodyguard when he appeared in federal court to speak his piece, said he especially wanted the Ezzard Charles-Jersey Joe Walcott title fight in 1949 because Cincinnati was Charles' home town and he was convinced there would be a sell-out crowd.

He came to New York, he said, and approached James Norris, the head of the I.B.C., and that if he wanted to promote a fight involving them it would cost \$150,000," Becker told the court.

Becker said he asked Norris why he wanted such a big amount of money and Norris replied that "we have to take care of Joe Louis."

Norris, Becker said, explained that the I.B.C. had given the heavyweight champion \$150,000 to retire undefeated and set up a tournament of contenders to replace Louis as title holder. In previous testimony, I.B.C. attorneys testifying general denial of all charges, had said that Louis signed up four title contenders on his own and without either Norris or any other top officials knowing about it.

Commercials Can Be Bad for Children

B Y CHARLES MERCER NEW YORK (U) — Small fists clenched tightly, eyes closed, he was yelling his head off. His mother stared at him with a mixture of irritation and amazement. He didn't want that, he cried. He wanted that, and he pointed to a different kind of cereal on the shelves of the supermarket.

Anyone who spends much time prowling around the supermarket, knows all about it. A child's eyes always have been closely related to his stomach. But only since the advent of commercial television has a child insisted on having a role in the weekly marketing.

The cereal endorsed by his favorite cowboy and the candy advocated by his T V screen pal have become very important to him—and her. In the nation's markets these days you see the kids using various techniques in getting what they want.

Some use the direct approach of demand. Others raid the shelves boldly, tossing the products they've seen advertised on television into their mothers' shopping baskets. A few try to sneak them in.

It sometimes seems that the only thing kids retain from watching television is the commercials. They chant them in the streets—and they remember the product when it's time to go to market.

"It's really disgusting," a mother said the other day. "The influence of TV advertising on children is truly a shame."

The woman couldn't say exactly why. Basically it seemed that she was merely suffering battle fatigue from semi-weekly engagements with her young at the cereal, cookie and candy shelves of the supermarket. These seem to be the fundamental spots where eyes meet stomachs, though.

They seem one atrocious youngster arguing with his mother over a brand of sauce.

Personally I don't think that commercials — purely as commercials — can possibly be "bad" for young children. It's my observation that you can only sell a child on something he already likes. He can look at beer commercials all day without raising a thirst for the stuff. If he de-

BREAKS OF LIFE—"Pepper" has had a couple of bad breaks in his 11-month-old lifetime.

in Minneapolis, Minn. But he has managed to stand up under them. The pup, half toy terrier and half Chihuahua, broke one leg while playing. After it was set in a crutch-like cast, Pepper fell off a sofa and broke the other. The vet again obliged. Pepper still can chase his owner's pet pigeon on all fours. But when he gets tired, he struts around on his hind legs.

RAH RAH OOMPH — She knows what she wants and how she can get it. She's Barbara Nichols, Hollywood's newest bombshell. "It's personality that sells in the movies, not great acting," says she. "I'll never follow Marilyn's wiggle into the 'I-want-to-be-a-great-actress' league."

Joseph Given a Split Decision

NE WORLEANS (U) — No less a boxing sage than Jack Kearns today labeled New Orleans' middleweight Charley Joseph champion-slayer timber and said the young stylist could "go all the way."

Joseph, a 23-year-old high school student, used a talented left hand and a heady defense last night to score a 10-round split decision over mauling Milo Savage of Salt Lake City, second-ranked contender for the middleweight crown.

Kearns, who piloted Jack Dempsey to the heavyweight title and Joey Maxim to the light heavy throne, was an interested spectator.

"Why, this boy has everything a boxer could want," said Kearns. "He punches well and the way he moves he could dance circles around any middleweight today, and that includes all of them."

Joseph convinced more than 5,900 fans and a national television audience he easily deserves the No. 9 middleweight ranking he holds. He puzzled Savage with his blinding speed during the early rounds and his defense neutralized Savage's furious attack in the late stanzas.

But the officials were split on the verdict. Referee Roland Brown had Joseph ahead, 5 rounds to 4 with 1 even, and Judge Eddie Brown tabbed him 4-3-3. Judge Charles Dabney saw Savage the winner, 4-3-3, three even. The AP card had Joseph 5-3-2 winner. Joseph weighed 169, Savage 161.

Perhaps, for all any adult knows a child's awareness of commercials is a symptom of quick perception and a good memory. At least that's something to think about the next time the kids want to take over the weekly marketing.

Pirates Making Like a First Division Team

By JOE REICHLER

Of The Associated Press

The lightly regarded Pittsburgh Pirates, with little or no fanfare, are quietly developing a one-two punch that compares favorably with any two back-to-back hitters in the major leagues.

It is much too early to refer to them as a "devastating duo," but during the Pirates' first seven games, Dale Long and Frank Thomas have done all that could be expected of third- and fourth-place hitters — and more.

Only the New York Yankees' Mickey Mantle-Yogi Berra combination has shown more power this season. The only other pair of sluggers who clearly outrank the Long-Thomas offensive are Brooklyn's Duke Snider and Roy Campanella. Snider, however, has not yet hit his true stride.

Pittsburgh, an overwhelming preseason choice to finish in the National League basement, has been the early season surprise, winning three of its seven games. Long and Thomas have been the dominating factors in all three triumphs.

Thomas rapped two singles last night, one of which drove in the run in the seventh inning that gave the Pirates a 6-5 victory over the Philadelphia Phillies. He also scored once. Long slammed two doubles and a single, batted in two runs and scored twice. Long is now hitting at a .429 clip, Thomas .348.

The Dodgers whipped the Giants 7-2 last night to take sole possession of first place in the National for the first time this season. Carl Erskine pitched the Brooks to their fourth consecutive victory with a seven-hitter. St. Louis walloped the Chicago

Famous Aircraft Figure Dies

BOCA RATON, Fla. (U) — Frederick B. Rentschler, 68, board chairman of United Aircraft Corp., since 1935 and credited with a large measure of U. S. air superiority, died yesterday at his winter home here.

A native of Hamilton, Ohio, Rentschler was graduated from Princeton University in 1909. His father, who had a successful foundry business in Hamilton, put the son to work on the automobile and Rentschler developed a passion for engines that never left him.

World War I turned him to aviation and the Army Air Service assigned him to an engine plant in New Brunswick, N. J. In 1919

Cubs 6-0 to climb into third place behind the two-hit pitching of Harvey Haddix. Rain washed out the Braves.

In the American, the New York Yankees, made it seven victories in eight starts by vanquishing the Baltimore Orioles 4-2. The victory gave the defending champions a 1 1/2-game lead over runner-up Chicago. The White Sox and Detroit had a day off.

Washington, another team playing a better brand of baseball than expected, upset the Boston Red Sox 4-1 at Fenway Park for its fourth victory in nine starts. Pedro Ramos handcuffed the Red Sox with three hits. Ex-Washington right-hander Bob Porterfield was the loser.

Herb Score pitched the Cleveland Indians to a 5-2 victory over Kansas City, yielding five hits and striking out eight for his first triumph. Home runs by rookie Rocky Clavito, Al Rosen and Vic Wertz eased the way. Bobby Shantz was the victim of all but Wertz's blast.

The Dodgers bombarded starter Jim Hearn and three Giant relievers for 13 hits, fielded spectacularly and won the game in a dash. Gil Hodges walloped a home run, double and single. Pee Wee Reese distinguished himself at shortstop with 11 chances, several of them difficult ones, and Jackie Robinson stole home.

Fight Manager Admits Many Violations

OAKLAND, Calif. (U) — An open admission of many rule violations by one of California's top fight managers set the stage for today's final hearing in a drawn-out state wide boxing investigation.

Three witnesses remain to be called, including the return of reluctant Jim Murray, fight promoter of San Francisco and Richmond, Calif.

Manager Sid Slaherty of San Francisco, whose stable of some 25 "boxers" includes middleweight Carl Bobo Olson, yesterday brushed aside the

Water Is Key to All Gains Economically

By GORDON BROWN
WASHINGTON (U) — Sen. Fulbright (D-Ark) pin-pointed in the Senate the other day the story of how Arkansas and the South are beginning to make significant progress toward industrialization.

His thesis was that the South no longer is an economic problem—rather it is an economic frontier. What he meant is that Arkansas and other southern states have the resources, the manpower, the potential for industrial growth needed to balance its present agriculture economy.

Arkansas has vast water and timber resources, water for making electricity and for industrial use; timber for paper mills and for making rayon cord; it has rivers for navigation; it has oil, gas and coal; and it has manpower.

Therefore, Fulbright said, Arkansas and the South have "A challenge to develop our potentials to reach the national level of economic development."

Fulbright presented statistics to show that Arkansas' output of electric energy increased 2,850 per cent from 1939 to 1954, compared with a national increase of 318 per cent.

For the same period, expenditures of manufacturers for new plants and equipment in Arkansas increased 763 per cent, compared with a national increase of 605 per cent.

Despite the gains, Fulbright said Arkansas still is below the national level of economic well-being. In 1954 Arkansas' per capita income was \$979, compared with a national average of \$1,770. And the average hourly earning in manufacturing for 1954 was \$1.25 for Arkansas and \$1.81 for the United States.

LATHER UP WITH LONG NOSE—"Jumbo," an elephant with the Circus Roland in Berlin, is nonchalantly lathering his keeper with plenty of soap and a big brush. He isn't allowed to wield the razor, however. It isn't that the keeper thinks "Jumbo" is clumsy or unsteady—it's just an old Bavarian superstition: never let an elephant shave you.

HIGH JUMPER—Lt. Henry P. Nielsen plans to make a 19-mile parachute jump next fall from the highest altitude ever reached by man. He plans to ascend almost 100,000 feet over New Mexico in a pressurized sphere-shaped gondola attached to a giant plastic balloon. From there he will make a free jump through the thin air, opening his parachute at 15,000 feet. Nielsen is already co-holder of the existing altitude record for parachute jumps, 45,209 feet, set in November, 1954.

Photographer Gets Start in Marines

By BOB THOMAS
HOLLYWOOD, April 25 (U)—One of the nation's top glamor photographers got his training in the unlikely of places—the merchant marine.

When Richard Avedon was a merchant sailor during World War II, his father gave him a camera. This prompted him to take special training to become a photographer's mate.

The war over, he sought a career in photography. But how to start? He offered to take some photos for a New York women's store for free. The store liked his stuff, hired him. Now his studio is one of the most prosperous in New York, and he has photographed nearly all the top glamor queens of the stage and screen.

During his merchant marine service, Avedon became friends with another sailor named Leonard Gershe. Later Gershe, a writer, became intrigued with his friends' adventures with models and glamor girls and wrote a story which is now being filmed as "Funny Face." Fred Astaire plays a fashion photographer thinly disguised as Richard Avedon. "I'm out here as consultant on the picture," explained Avedon, slim and dark-haired who looks even younger than his 32 years. "I advise on color, design and other matters. We're trying to

achieve some of the effects I get in my photography."

Avedon spoke on many topics, including his experiences working with famous names. It may shock some people to learn he does not consider Grace Kelly an ideal subject.

"I have photographed her three or four times and I wouldn't do it again," he said candidly. "She brings only her eyes, nose and lips to the studio and says, 'There they are: photograph them.' She offers nothing of herself."

"On the other hand, Audrey Hepburn is a dream. She has great inventiveness, and you get wonderful shots from her."

Ambush Leaves Four Israeli Men Dead

JERUSALEM (U) — Shots from ambush killed four Israeli water authority men in the Negev Desert a few hundred yards from the Jordan border last night.

The killings tightened the Arab-Israeli tension that Dag Hammarskjold's mission is seeking to abate.

The victims' command car was set afire. "This outrage bears all the signs of another Fedayeen action, from whatever territory the murderers may have come," Israeli Foreign Minister Moshe Sharett protested to the U. N. secretary general.

Fedayeen Arab suicide raiders last infiltrated Israel from the Egyptian-held Gaza Strip in a series of night attacks preceding the April 18 cease-fire on the frontier shared by Israel and Egypt. Israeli Premier David Ben-Gurion said Sunday 11 of them had been killed. He put Israeli deaths for the month at 18.

The Israeli water party—made up of three engineers and their driver—was reported attacked shortly before sundown on the Beerseba-Eilat road not far from Scorpion Pass, where Arab infiltrators shot up an Israeli bus in 1954 and killed 12 of its passen-

gers. Israeli spokesmen said the four were cut down by automatic fire. The killings followed closely on fresh trouble between Israeli fishermen and Syrians on the Sea of Galilee, the historic fresh water lake that Israel claims is wholly within Israel's frontiers.

Israeli sources said Syrians fired on a large fleet of Israeli fishing boats in the northeastern section of the sea, where Syria's frontier overlooks the shore, and the boats were forced to flee, abandoning 22 fishing nets.

The Sea of Galilee is fed by the River Jordan and Arab-Israeli differences over development of that stream were a factor in Hammarskjold's efforts in Damascus today to secure an unconditional cease-fire along the Syrian-Israeli frontier.

Recent serious Arab-Israeli clashes have occurred along Israel's borders with Egypt and Syria. The frontier with Jordan has been generally quiet for months, and that with Lebanon even quieter.

Well-informed sources in Damascus said Syria is demanding a U. N. sponsored pledge that Israel will not divert water from the Jordan as a condition for agreeing to a cease-fire.

The informants said the Syrians told Hammarskjold they agreed in principle to a cease-fire but reserved the right to regard any Israeli attempt to divert the waters of the Jordan as an act of aggression.

The Syrians referred to an irrigation project started by Israel in the demilitarized zone near Benat Yacov, south of Lake Hule. The Israelis halted work on the project last spring when serious border fighting threatened.

Re-appraising Cold War Issue Is Apparent

By JOHN M. HIGHTOWER

WASHINGTON (U) — The Eisenhower administration seems to be moving reluctantly and under various pressures toward a reappraisal of its major cold war policies. Secretary of State Dulles expects to discuss with Democratic chairmen of the Senate and House foreign policy committees in the next few days plans for setting up a committee of prominent citizens to investigate the whole foreign aid program. That is one of the chief instruments of government operations abroad.

Dulles leaves next Tuesday for a Paris meeting of the North Atlantic Treaty Council. There he will discuss with foreign ministers of the other 14 NATO nations the possibility of giving that essentially military organization new political and economic responsibilities. Indications are that in moving to investigate foreign aid and ex-

pand the scope of NATO administration leaders are in part at least responding to pressures at home and abroad.

These pressures include claims that this country's policies, or at least its tactics, have not changed rapidly enough to deal with Russia's increasing emphasis on economic and political weapons in the cold war.

Russia's behavior under the Bulganin-Khrushchev regime has so shifted that fear of war is no longer a driving force in the Western alliance. Western leaders all have taken the line that the struggle to prevent expansion of Soviet power and influence must take new forms while preserving the alliance.

Such countries as Canada, France and Italy have been urging for months that NATO be given broader responsibilities, especially in economic matters.

Dulles said in February he thought European economic problems could be handled better through other agencies which embrace such non-NATO countries as Sweden and Switzerland. (MORE)
